

* Information that are helpful and needs to be publicized commercially / technically are summarized herein. It would be really appreciated if the persons in charge kindly check the contents of this circular letter and post it in a place highly visible inside the company or circularize it.

1. A new catalog for Pneumatic actuator/Electric actuator has been released!

Our catalog can be viewed in our Website and, if any printed copies are additionally required, please ask us accordingly.

★What had become newer from the new catalog?

- Torque indication according to various pneumatic (3Bar~8Bar)

- Development of new models

A series	A185, A300
R series	R115, R185
<p>* With the addition of higher sizes, can respond to larger valve, and has merits in pricing with the addition of intermediate models.</p> <p>* As a model not fully developed yet, a separate inquiry is required to be made about the delivery & price of above model, and data values for the model are estimated ones.</p>	

- Addition of mounting sizes

R40&R50	F04	No additional processing fees
A210	F14	
<p>* With the addition of mounting sizes, can be applied to various valves and the cost for bracket production can be reduced.</p> <p>* Since the additional sizes are option items, it must be clearly indicated in the purchasing order.</p>		

2. A lots of electric actuator models have been released!

As a electric actuator of scotch yoke type, like a pneumatic actuator, our products has superior durability and boast excellent quality.

Type	mass production stage	imminent release	under development / planned to be developed
KE- G (spur gear)	KE005(includng MC), KE008	KE008(MC)	KE001, KE003
KE- P (scotch yoke)	KE010, KE016, KE028, KE040, KE050	KE016(MC)	
*MC (Modulating Control)			

3. Product certifications/Test reports that KOSAPLUS has acquired

Products	Acquired certifications	Certifications pending
P. act	CE, ATEX, IP	SIL (planned to be acquired in 2014)
E. act	CE, IP	
Limit switch box	KCs, IP	
* Refer to Website for certifications		

4. Our Website has been reorganized! (kosaplug.com)

- Reorganized to locate data more easily such as selection guide, catalog, certifications etc that are looked for frequently.
- Upload at any time a wide range of options of the Pneumatic actuator/Electric actuator.
- Provides identical screen not only in the Explorer but also in the Chrome, Firebox.
